Interview questions:

1. Can you tell me a little bit about where you're from?

I'm from uh I currently live in Orlando FL I've been living here for about 8 years but I was born in Puerto Rico in a town called Wawa and I lived there for like pretty much most of my life.

2. What are two movies that you like and why?

My favorite movie is the 1999 cinematic masterpiece the mummy with Brendan Fraser and Rachel Weisz. It's hard for me to pick a second movie because I like I have a lot of favorite movies I like movies and every time I watch anyone that I really like my list moves around a little bit so I have my own favorite comedy movie my own favorite romantic movie adventure movie for example inside of the sci-fi venture movies the last Jedi will be my favorite in doing in that one my favorite sci-fi movie it's arrival um so it's like that it's hard for me to decide on two movies specifically.

3. What is it that you like about Roller skating?

Roller skating makes me think that I am a bit athletic even though I'm not really good at it but it's fun and I like the esthetics about it.

4. What is it that you like about comic cons?

I like that it's a lot of people that like the same things that I like and we come together and it's a nice community you can also buy a lot, find a lot of good and cool stuff to buy uh you see creators you see artists it's fun.

5. What brought you to pick reading as a hobby?

it was just something that I did as a kid and I liked it and I like having my own little movies in my head uh so yeah it's how you learn it's unstoppable.

6. Why did you pick building puzzles as a hobby?

I like puzzles because they take me to uh tranquil space like Zen I like putting things together and seeing how everything makes sense at the end.

7. What Interest you to follow reports on space or space travel?

I like space and space travel because it's one of the few things that it is publicly and very visible requires international cooperation one of those few things that you can see the unity between nations and entrepreneurship of human as a race and looking for the future and being hopeful about the future.

8. What do you consider was your first major accomplishment?

I've had many accomplishments minor ones but one that I'm proud is when I got over my shyness about talking to strangers that was accomplished while I was working in universal because I was trained on it

and I had coaching and it made me be a more secure person and trust my instinct when talking to strangers it is still hard but I'm glad I overcame that anxiety.

9. what was your perception when you graduated from college, how did you feel?

I felt like I could come accomplished the first step on a whole new stage of my life but just the first step and that I was ready to build upon it whether with my career or more location further on.

10. What do you consider is your last major accomplishment?

My major accomplishment was the few travels I did in 2022. I went to states that I haven't been to, discover new places like Tennessee, Delaware, North Carolina, Long Island New York, New York City, New Jersey and Philadelphia. and I also got to see the Artemis 1 launch.

Subject hobbies.

Josi picked up reading from an early age because of how she used it to create movies and stories inside her head and enjoy them vividly. Some of the books that she has read has been from the authors of JK Rowling and Susan Collins. this has been a major contributor in being able to have conversation starters when dealing her with her shyness. Another hobby that she really enjoys is the peace parcel making but not just any puzzle making has to be the one tabletop puzzle making. Because friends and family already know that she likes this there has been plenty of times that puzzle gifts have come up. This takes her into a Zen place and a calm place she also uses the time when she's making the puzzles to listen to reports about space or listen to an audio book about her favorite authors or watch some episodes or listen to the episodes. Whenever she moved to Florida she picked up following reports about space and space travel. Also she goes to the launching sites to see the Rockets go to outer space. She sees this as the human race united as one for discovering and working on research for humankind. She has also been interested in buying space travel puzzles and the Artemis 1 launching rocket kit. To my perception she also goes into a Zen place when reading about space the same way she goes into a Zen place when building puzzles. I also consider these amazing hobbies to follow.

Subject's bio.

From the information I've gathered from Josie is that she is a really happy person all around. he enjoys life and the little things also in the big things. She lives in the moment I would say 90% of the time which makes her really grounded to her surroundings. She's a really determined person when it comes to acquiring new knowledge on things she likes like reading from your favorite authors or reading about space travel or new puzzles. She really loves her family dearly and feels for them intensely. Her sister her is her best friend which she gives a lot of kisses and hugs although her sister doesn't like being touched much. Another thing she really likes is pets. She has had multiple pets throughout her life. There has been dogs , fishes and cats. I asked her how would she feel about leaving without pets and she says it's out of the question or she sees it not happening. Right now she has two cats which she loves dearly. one thing she also liked is to have plants around the house and also take care of them. She also likes the idea

of having a homemade garden that gives fruits or vegetables that she can cook freshly from her garden. She was born in Puerto Rico in the Pueblo of Toa Baja. Like that community because it was a syncopal community and one can just walk to either her uncles and aunts house, also her grandma's house and whenever she was growing up it was easily a way to play with other kids because did did not live very far. She also likes all types of music but not all types of artists.
